SAFER INTERNET DAY 2026

All classes have participated in lessons for 'Safer Internet Day' learning all about how to use AI safely.

At home you could:

- Chat to your child and find out if they are using these tools and ascertain the reason why. Ask them to show anything they have created.
- Check the age ratings of any apps/websites that your child is using and set up appropriate parental controls.
- Develop your child's digital literacy by teaching them to recognise online risks and to behave responsibly online

ROBLOX

Roblox is a platform consisting of a collection of games.

Players can either create games or play games that other users have created.

A lot of the content is user generated, which may mean not all games will be suitable for your child to view/play. If your child is playing Roblox, it is important to monitor what your child is accessing and set up appropriate parental controls.

New Parental Features

Roblox have released three new parental controls for your child's Roblox account. These are:

1. Friend blocking - you can now block anyone on your child's friends list that you do not want them direct messaging.
2. Experience blocking - you can now block any specific experiences (games) that you do not want your child to access.
3. Top game insights - you can now see the 20 experiences (games) your child has spent the most time on in the last week.
